May 24—Ontario Dental Association Convention

# Normalcy FOLLOWING Injections

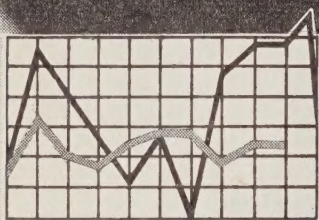

No extreme stimulation of vagus center thus minimizing risk in abnormal patients.

Better blood flow to field improving post-operative picture in exodontia.

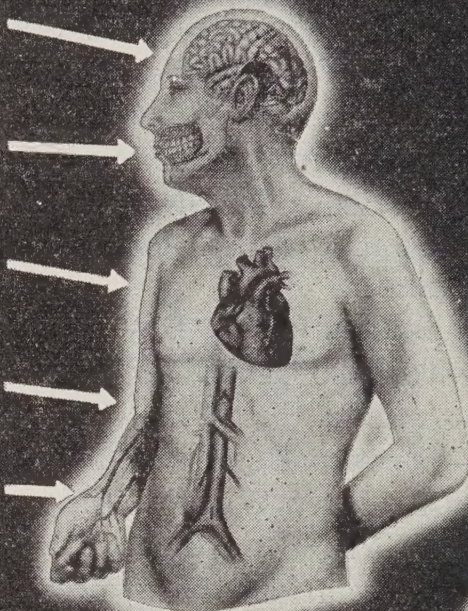

Minimum action on heart. Another factor in minimizing risk and promoting relaxation.

Minimum disturbance in blood pressure again reducing risk.

More nearly normal pulse promoting patient calmness and cooperation.

Typical graph showing comparative effects of epinephrin and Cobefrin on systolic blood pressure. Each line represents observations made with patients in chair under practical clinical conditions. Black line, Epinephrin. Grey line, Cobefrin.

You know that with a normal, calm and relaxed patient, you are enabled to do better work and to exercise all the skill and knowledge at your command.

Then why not switch to Novocain with Cobefrin. Clinical observations by many leading authorities on local anesthesia show a greatly reduced incidence of unpleasant and untoward symptoms. Practical use in millions of injections in actual practice shows that Novocain with Cobefrin must lend something to an injection that is not offered by ordinary solutions.

Novocain with Cobefrin is available in Cook and R. B. Waite cartridges and ampules and can be obtained in cartridges which can be easily and quickly alkalinized immediately preceding injections.

Novocain and Cobefrin, registered trademarks, Winthrop Chemical Company, Inc. representing its brands of Procaine Hydrochloride and Nordefrin respectively

SIXTEENTH SEASON

VOLUME FIVE

**DR. HAROLD W. HOAG**

**President**

## PRESIDENT'S MESSAGE

### To the Dentists of Greater Toronto and Vicinity

As President of The Academy of Dentistry, Toronto, it is my honor and privilege to convey a personal greeting to you, and on behalf of the Executive, present for your confirmation and perusal the fifth volume of the Bulletin, which outlines all the activities for the ensuing year.

In a time of social, political and national unrest, it is a joy to feel that a spirit of optimism prevails within the ranks of our own profession. The numerous committees of The Academy of Dentistry are always very active in trying to further the cause of Dentistry both from a Public Health standpoint and the status of the individual Dentist, whether it be academic or economic. The words of the poet are rather appropriate, at this time.

“God give us Men. A time like this demands strong Minds, Great Hearts, True Faith and ready Hands; Men whom the lust of office does not kill; Men whom the spoils of office cannot buy; Men who possess opinions and a will; Men who have honor—Men who will not lie; Men who can stand before a demagogue and scorn his treacherous flatteries without winking. Tall men sun-crowned, who live above the fog in public duty and in private thinking.”

You are requested to study the programme outlined in this issue of the Bulletin and to lend your support by renewing your membership and availing yourself of all the ways and means afforded by this programme to improve your professional standing. Last year, The Academy of Dentistry increased its membership twenty per cent., that total representing fifty per cent. of the dental population of Toronto. The objective should be one hundred per cent. The greater the membership, the better the programme for the benefit of all.

May the progress of the past years be our incentive for this year and, as your President, may I solicit your Confidence, earnest support and heartiest co-operation for a banner year 1938-39?

HAROLD W. HOAG.

## OFFICERS OF THE ACADEMY OF DENTISTRY

## FOREWORD—PROGRAMME COMMITTEE

In formulating a programme for the Academy Year the programme committee has kept in mind the requests received from the questionnaire of last year.

The major subjects mentioned in this survey and not yet dealt with will be presented in this year's programme.

The following are the subjects in the order in which they will be presented:

- (1) Radiography
- (2) Partial Dentures (Winter Clinic)
- (3) Dentistry for Children
- (4) Health, Teeth, and Practice
- (5) Periodontia
- (6) Oral Surgery

Complying with the request from the Fellows of the Academy the programme committee have secured a speaker for the Opening Dinner who will deal with a subject of general interest.

The committee wishes to lay special emphasis on a course in Radiography, sponsored by the Academy and conducted by Dr. Ralph S. Voorhees. This course will be limited to Fellows of the Academy and will be presented on November 17th and 18th, 1938.

The Winter Clinic will be held at the King Edward Hotel, Wednesday, December 7th, 1938. Clinics will commence at nine a.m. and will include an evening session.

The programme committee has spent considerable time and thought in securing the best clinicians the profession has to offer, and your attendance will be greatly appreciated.

---

Two-Day Course—The cost of this course, which is limited to the Fellows of the Academy, will be covered by a special fee, to be announced along with the other details at a later date.

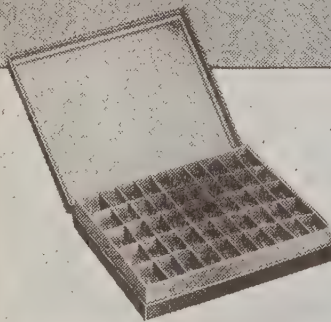

CALCIUM

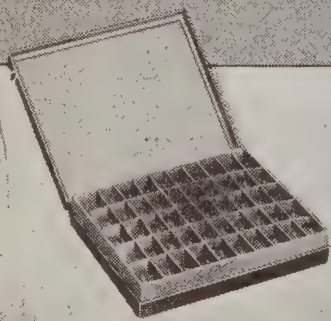

PHOSPHORUS

VITAMIN A

VITAMIN D

# "CALCIUM A"

## *A Mineral-Vitamin Dietary Supplement*

INCREASED POTENCY—"Calcium A" capsules contain three grains of calcium and phosphorus salts incorporated in a biologically standardized concentrate of cod liver oil, ensuring a potency of at least 2,500 International Units of Vitamin A and 400 International Units of Vitamin D, thus representing a vitamin content in excess of one teaspoonful of cod liver oil U.S.P. XI.

INDICATIONS—During the past few years "Calcium A" has been frequently prescribed throughout the third trimester of pregnancy and during lactation. "Calcium A" is also recommended as a dietary supplement throughout childhood and especially at the age of puberty, for the purpose of preventing or retarding the incidence of dental caries.

Due to its mineral-vitamin content, "Calcium A" constitutes a valuable restorative and nutrient tonic following illness or surgical operation.

## ANNUAL WINTER CLINIC

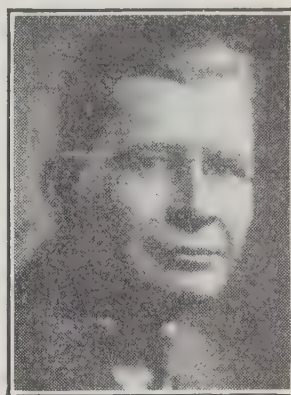

Alexandra Room

King Edward Hotel

Wednesday, December 7th, 1938, 9 a.m.-10 p.m.

Dr. I. K. LOWRY

Dr. G. A. HIATT

The Annual Winter Clinic will again place before the Fellows of the Academy the latest in ideas, methods and techniques in practical demonstration.

A full programme is arranged to give the Fellows a choice of detailed clinics in the following subjects: Partial Dentures, Bridgework, an introduction to the work on bone of Wingate Todd, Periodontia, and restoration of "Temporo Mandibular" relations.

The Dental Assistants and Nurses Associations and the Dental Trade Association will again add materially to our programme.

Some outstanding clinicians who will present work are:

DR. I. K. LOWRY, of the Montreal Clinic Club.  
 FLOYD SUTTON, Chicago.  
 DR. HIATT, University of Indiana, Indianapolis.  
 DR. VERNON FISK.  
 DR. CHAS. WILLIAMS.  
 DR. FRANK LOTT and DR. O. S. CLAPPISON.

A contribution from the Hamilton Dental Association.  
 Table Clinics presented by our own Fellows.

LLOYD STIRLING  
 HAROLD SWALES

LLOYD GROSE  
 W. G. TRELFORD,  
 Chairman.

Any Fellow of the Academy who feels he has a contribution to make to this programme is invited to communicate with one of the Committee.

## PAST PRESIDENTS' NIGHT

Osler Hall

Academy of Medicine Bldg.

Wednesday, February 8, 1939

Speaker:  
**DR. WINGATE TODD**  
 Cleveland, Ohio

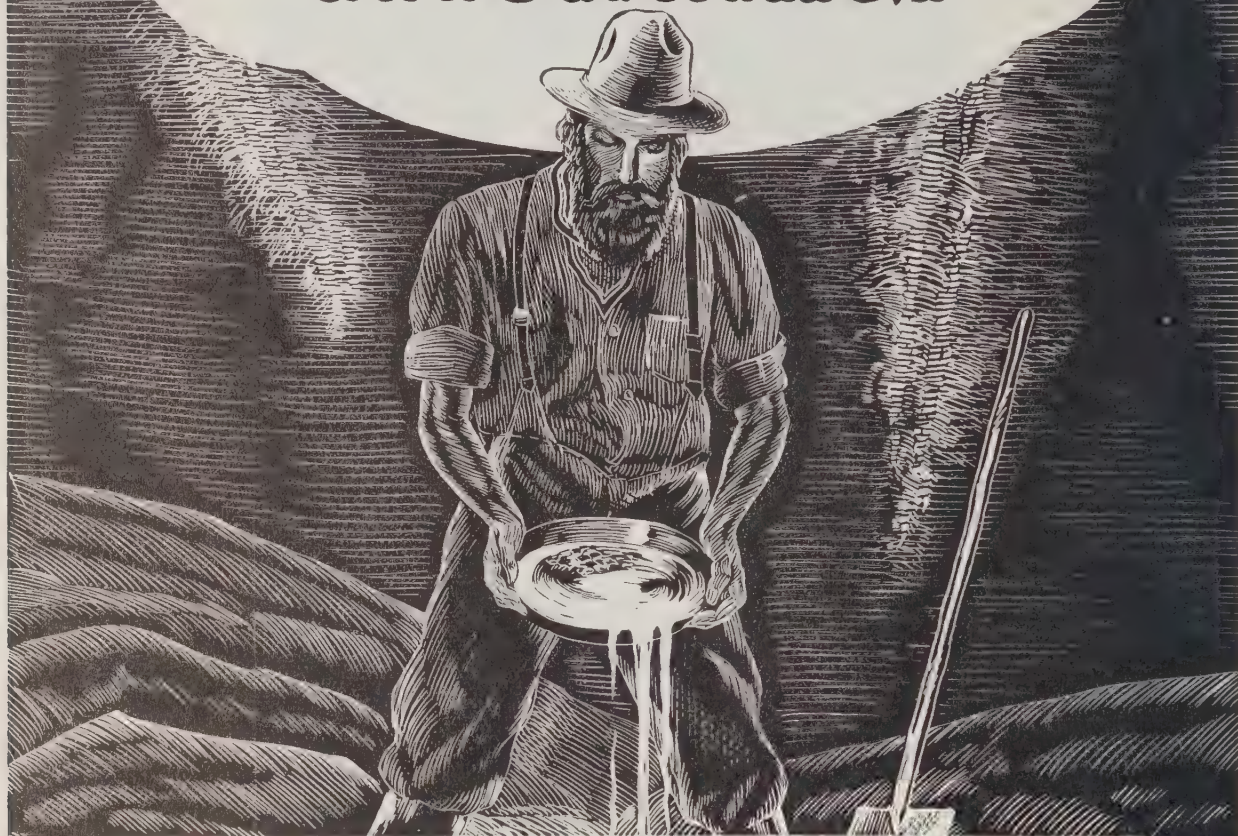

T. Wingate Todd, M.B., Ch.B.Manc.; first class honors; 1907 F.R.C.S., England, 1911; Demonstrator of Anatomy Manchester University 1907-08; House Surgeon Manchester Royal Infirmary 1909-10; Lecturer in Anatomy Manchester University 1910-12; Examiner Dental Anatomy University of Manchester 1908-12; Henry Willson Payne, Professor of Anatomy Western Reserve University 1912 and on; Director of the Hamann Museum of Comparative Anthropology and Anatomy 1922 and on; Chairman of Brush Foundation 1928 and on; Director Brush Inquiry 1929 and on; Member Board of Managers Bolton Fund 1930 and on; Director Developmental Health Inquiry of the Associated Foundations 1932 and on; Vice-President, American Association of Anatomists 1920-21 and 1938-39, Council 1920-24; President, American Association of Physical Anthropologists 1938 and on; Captain, Royal Canadian Army, Medical Corps—retired.

**Subject: "HEALTH, TEETH AND PRACTICE"**

Generalizations common today must be replaced by specific knowledge so that the principles of health may be instilled into practice. The address will therefore be a consideration of the bearing of recent advances in our understanding of tooth growth, eruption order, extrusion; character of crown and roots; chemistry and histology of teeth; internal structure and chemistry of alveolar processes on the interpretation of general constitutional (somatic) health and the formulation of the dental problem to be solved.

# Williams "Klondiker"

## A NEW VERSATILE INLAY GOLD *designed for* ALL-AROUND USE

Williams "Klondiker" ushers in a new era of inlay gold. For, now, instead of puzzling over which gold to use, you simply say "Klondiker". Its broad scope of adaptability... attractive rich gold color... its ease of casting and sharp margins—all combine to make Williams "Klondiker" *the* inlay gold to standardize on. Ideal for M. O.'s, M. O. D.'s, D. O.'s  $\frac{3}{4}$  crowns, abutments, etc. Meets A. D. A. specification No. 5, type C. And the price: only \$1.90 per dwt. Ask your dealer or write Williams Gold Refining Co., Buffalo, N. Y.; San Francisco, Calif.; Fort Erie, N., Ont.

# Williams

## STUDY GROUP SECTIONS

Study groups will be formed in a manner similar to that of last year. It was found that by selecting clinicians for the various groups, prior to their formation, that your study group committee was able to get these started earlier in the season.

The following are the regulations governing study groups:

1. Any ten members wishing to take special study in any subject, will be provided with a clinician by the Academy.
2. A fee of \$5.00 is payable to the treasurer of the Academy and must be paid on the formation of the group.
3. No group will be formed with less than ten members.
4. Each member of a group must be a member of the Academy.
5. All clinicians must be acceptable to the Academy Council.
6. Each group will elect a Chairman and Secretary.

## PERIODONTOLOGY

Clinician—DR. CHARLES H. M. WILLIAMS

The plan of the course for this group is based on a desire to teach simple and practical procedures in the examination and treatment of the most frequently encountered periodontal lesions. The meetings will consist therefore of a series of demonstration clinics on patients under treatment.

The main topics will be as follows:

- a. Examination—diagnosis and choice of method of treatment.
- b. Scaling—calculus formation, types of scalers, sharpening, application.
- c. Occlusion—classification, technical procedures of correction and demonstration of correction by grinding.
- d. Pocket Surgery—methods available and demonstration of the application of each.
- e. Oral Hygiene—choice of instruments and materials and demonstration of instruction of patient.
- f. Necrotic Gingivitis (Trench Mouth)—methods of treatment.

*Roberts*  
*Local Anaesthetic*

- Biologically prepared in a government licensed laboratory.
- Clinically tested before being liberated for use.
- Sold direct to the dental profession at a substantial saving.

## FULL DENTURES

Clinician—DR. FRANK COLE

This course will cover practical procedure in full denture construction—tuller technique, rebasing, etc.

## OPERATIVE DENTISTRY

As this course covers a large field it has been decided to leave selection of clinicians to the group, and in this way they will be able to have a different clinician for each phase of the course.

## PUBLIC SPEAKING

PROF. G. A. McMULLEN

This has always been a popular group and those who have taken it speak very highly of the benefits derived under Prof. McMullen's able guidance.

Ten two hour sessions make up the course during which each member is required to speak on either Dental, Current or impromptu subjects.

This public speaking course covers:

- a. Correct breathing and posture.
- b. Exercises.
- c. Voice tone, pitch and control.
- d. Actual speaking in class.
- e. Introducing speaker, parliamentary procedure, etc.

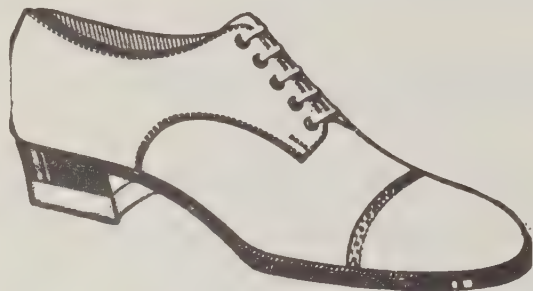

These are the main study group sections and your committee realize they do not cover the entire field. However, if a group of ten members wish a study course in some subject not covered by these groups, one will be arranged for them.

Will Academy members desiring to take study courses please intimate their intentions as early as possible.

Chairman of Study Groups—Lloyd A. Stirling.....KE. 4483

## TAPLIN NATURAL TREAD SHOES

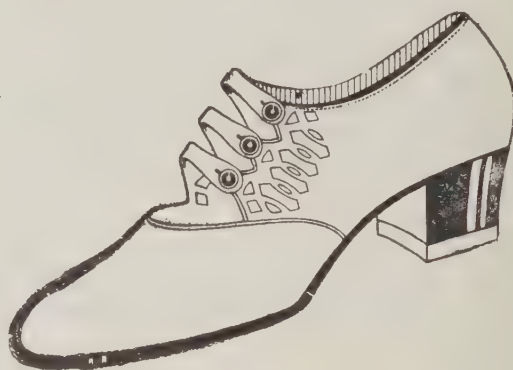

Women's Blucher Oxfords

were specially designed to make the wearer happier and more efficient, and we can suggest nothing that will do so much to make the work of either Dentist or Nurse less tiresome than the purchase of a pair of these Taplin Shoes—the shoes which have already done so much for at least 70,000 pairs of tired, ailing feet.

Many Dentists and Nurses are now wearing them with delightful satisfaction. WHY NOT YOU?

We guarantee a happy relief from troublesome callouses, corns, bunions, ingrown nails and other ailments caused by the wearing of viciously designed, ill-fitting shoes.

"Dresto" Three Strap

Men's Oxfords

Wear Taplin Natural Treads at work and at play. Give yourself the comfort that you are so diligently trying to give others. Our Shoes are fitted and adjusted to suit the individual requirements of each foot. Come in and try them on — you will be delighted.

## ORAL SURGERY

Clinician—DR. FRANK JARMAN

This course is planned to be of aid to the general practitioner and will combine lectures and operating with patients. It is planned to cover the following topics:

- a. Examination, records, etc.
- b. Choice of anaesthetics.
- c. Choice of instruments.
- d. Difficult extractions.
- e. Post-operative treatment.

## DENTISTRY FOR CHILDREN

Clinician—To be Selected on Formation of the Group

Topics discussed in this course will include:

- a. Child psychology.
- b. Handling the average child.
- c. Handling the difficult child.
- d. Parent and child education.
- e. Examination of mouth.
- f. Choice of filling material.
- g. Cavity preparation and insertion of fillings.
- h. Discussion of extraction for children (by an exodontist).

## ORTHODONTIA

Clinician—DR. G. VERNON FISK

In this study course preventative phases will be stressed, and also to be discussed are:

- a. Growth and development of the organ of mastication.
- b. Appreciation of effects of normal occlusion in contrast with malocclusion on oral and general health.
- c. Recognition of incipient malocclusion.
- d. Treatment of cases recognizing biologic as well as personal limitations.
- e. Most modern methods of correcting common child habits associated with malocclusion.
- f. Use of appliances in assisting normal growth and development where a tendency to malocclusion is present.
- g. Discussion of the appropriate ages for treatment of various types of malocclusion.
- h. Simple appliances, their scope and construction.
- i. Value of orthodontic service for children in preserving the health and function of the teeth, as well as developing facial harmony.
- j. Patient and parent education.

TORONTO EAST DENTAL ASSOCIATION

DR. HELEN J. MANCHESTER  
President

The pioneer district dental group begins its twelfth season of activity with the Annual Fall Golf Tournament. This popular event will be held at Cedarbrae Golf Club on Wednesday, Sept. 21st.

So well received was our opening dinner last year at the Club Esquire that we are repeating the event, which will be held on Monday, Nov. 7th.

We hope to welcome many of the East End dentists at our monthly meetings, which will be of an interesting nature. Dates planned for our meetings are as follows: Thurs., Dec. 1st, Christmas Turkey Roll; Thurs., Jan. 19; Tues., Feb. 21; Mon., Mar. 13. These meetings will be held at the Toronto East General Hospital.

The officers of our association extend greetings to the Academy, with best wishes for a successful season.

MT. SINAI DENTAL SOCIETY

DR. H. M. JOLLEY  
President

The Mt. Sinai Dental Society enters into its twelfth year of existence with confidence and eagerness born of experience.

The Society will continue as in the past to further its objects of harmony and good fellowship, advancement of the profession of Dentistry in both professional and lay relationships, and to conduct the dental clinic of the out patient department of the Mt. Sinai Hospital.

The members of the society are committed both individually and collectively to a policy of active co-operation with the Academy. All Fellows of the Academy are hereby cordially invited to attend the regular Society meetings which are held on the last Thursday in each month (except December) from September through May. The programme of the meetings is varied—scientific, general, and social. The meeting place—Chudleigh House.

The executive for 1938:

## AFFILIATED GROUPS

### PROMOTION OF CHILDREN'S DENTISTRY

The Children's Dentistry Group which was formed following Dr. Sweet's course in May 1937 met on June 6th, 1938 to discuss activities for 1938-39. The following were present: Doctors Grant, Mitton, Higgins, Fisk, Bedell, MacGregor and Prendergast. Dr. Mitton was elected President and Dr. Prendergast as Secretary.

Members of the profession who are interested in Dentistry for Children are invited to join the group and when the membership is sufficiently large the group may ask for official recognition by the American Society for the Promotion of Dentistry for Children, in the constitution of which the following appears:

"The purpose of this Society shall be the advancement and dissemination to the profession and the public of knowledge of all phases of Children's Dentistry and in particular its relation to general health."

### THE TORONTO SOCIETY OF DENTAL ORAL SURGEONS

The Toronto Society of Dental Oral Surgeons was organized in 1935 for the purpose of discussing subjects of interest to exodontists, and promoting good fellowship between the members.

The group has a dinner meeting about three or four times a year and at each meeting one of the members presents a paper or leads a discussion on some particular problem.

The officers for 1937-1938 elected in November were: Dr. Henry Robb, president, and Dr. George A. Morgan, secretary. The members for this year included: Dr. J. M. Cation, Dr. W. L. Chalmers, Dr. A. Crich, Dr. S. L. Frawley, Dr. Gordon Frawley, Dr. B. A. Gardiner, Dr. F. Jarman, Dr. H. J. Johnson, Dr. W. J. Kerr, Dr. R. W. Matchett, Dr. E. W. Paul and Dr. H. M. Robb.

### TORONTO ORTHODONTIC STUDY CLUB

The Toronto Orthodontic Study Club celebrated its tenth anniversary this past year. The members are ever interested in the study of orthodontic problems and are continually adding to the collection of case data.

At the annual meeting the following officers were elected:

|                          |                  |
|--------------------------|------------------|
| President.....           | Dr. H. Halderson |
| Vice-President.....      | Dr. S. Lesco     |
| Secretary-Treasurer..... | Dr. M. Culbert   |

## THE TORONTO CHAPTER OF ONTARIO DENTAL NURSES & ASSISTANTS ASSOCIATION

The Executive have spent much time and serious thought on the preparation of a programme for the year 1938-39; and they extend to every dental assistant in Toronto and district a hearty invitation to become an active members in this association, which through its activities should be of vital interest to all.

The programme this year will comprise Lectures by Dentists, Clinics, Addresses on Current Topics, and Social Get-together meetings.

As in the past five years the important objective in the Association endeavour is "Orthodontic Treatment for Under-privileged Children." This is a large enterprise and needs the helpful interest of every dental assistant.

THE LADIES' AUXILIARY  
To  
THE ACADEMY OF DENTISTRY

MRS. L. D. DREWBROOK  
President

This fall we begin our seventh year of organization. The opening event will be a luncheon at the Alexandra Palace on September the 29th at 1 p.m.

Plans are under way for a very interesting programme throughout the coming year, and we again extend a very sincere invitation to any Academy member's wife, mother, or sister, who has not already joined our association, to become one of us. We assure her of a warm welcome.

We take this opportunity to thank the members of the Academy for their loyal support of our various efforts, and hope that we always may be of real service to the Academy of Dentistry.

EXECUTIVE FOR 1938-39

In Memoriam

CHARLES NELSON JOHNSON

CALCIUM, phosphorus, and Vitamin D are essential in the development of sound teeth. Growing children, pregnant and lactating women particularly need an abundance of these factors.

Since ordinary diets are often deficient in these mineral elements, many dentists prescribe a dietary supplement for these cases, such as Viophate-D with Viosterol Squibb. This product supplies calcium and phosphorus in therapeutically effective quantities plus ample Vitamin D to assure proper absorption and utilization.

Viophate-D with Viosterol Squibb is supplied in tablet and capsule form. One pleasantly flavoured tablet or two

capsules contains 9 grains dicalcium phosphate, 6 grains calcium gluconate, and 660 units of Vitamin D (International Units). Three tablets (or six capsules) is the usual daily prophylactic dose for growing children or adults.

The capsules are useful as a change from tablets or during pregnancy when nausea tends to restrict normal food intake. The tablets are available in boxes of 51 and 250; capsules in bottles of 100 and 1,000.

DR. J. N. STEWART  
President

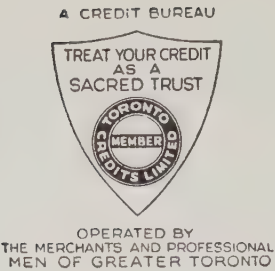

On behalf of the members of the Ontario Dental Association it is my privilege to convey greetings and best wishes to the Toronto Academy of Dentistry.

Being members of the largest single group of organized dentists within the province, a great responsibility rests with you. Smaller societies look to you for guidance. You have shown a wonderful spirit of co-operation not only with the smaller associations but with the Ontario Dental Association, for which we are deeply appreciative.

Knowing that your executive is going to provide you with a wonderful programme this year and that much of it will be of great value to the Ontario Dental Association. I am going to thank you in advance for the help you will be giving the Association next May.

May you all have a very happy and profitable season.

**ARE YOUR PATIENTS ENTITLED TO CREDIT?**

From an analysis made of professional accounts in different centres, it has been definitely ascertained that “One-fifth of Dentists’ incomes is lost to ‘Dead Beats’.” This loss can be substantially reduced by obtaining a credit report from the Bureau.

The information on the paying habits of the people in the city which has been accumulated by the Toronto Credit Bureau during the past nine years is available to the professional members. This trade record, including accounts placed for collection by over 500 professional men, is furnished by telephone at fifty cents per call, or a complete written report covering antecedents, resources, income and general reputation at \$1.00 anywhere in the United States or Canada.

An efficient department for the collection of accounts is also maintained.

## SECRETARY'S REPORT FOR THE YEAR 1937-38

It is my duty as Secretary to recount very briefly the activities of the Academy for this past year. It is with satisfaction I report a splendid attendance at all our meetings. They commenced on time, and were ably conducted.

The answers to the questionnaire sent to all the profession in Toronto and vicinity were carefully considered by the Programme Committee under Dr. Fisk, and formed the basis for the years activities.

The Bulletin published in October contained, in addition to the Academy programme, the activities of all dental and allied organizations in Toronto and District. Dr. Hoffman, the Editor, and Dr. Kerr, Business Manager of the Bulletin, are to be congratulated.

The Academy year started off with a Good Fellowship Night which was held in Eaton's Round Room early in October. This informal night has proven its worth as a means of getting better acquainted.

The First Stated Meeting and Annual Dinner was held in Eaton's Round Room on Tuesday, October 26th. A very able speaker Merle W. Thorpe, of Washington D.C., editor of "Nation's Business," was secured, and spoke on "What lies ahead for Business and the Health Professions." Over three hundred of our Fellows, as well as many from the Academy of Medicine, enjoyed this instructive and excellent address.

A Special Meeting was held in Osler Hall on Wednesday, November 17th, when the essayist, Dr. Chas. Shepard Tuller, of New Orleans, spoke to an overflow audience. Dr. Tuller's lecture, illustrated by motion pictures, has resulted in a wave of most enthusiastic effort among the Fellows.

A feature of this Academy year was the two-day practical course by Dr. Tuller, held in the Faculty of Dentistry Building, on November the 18th and 19th. This course, which was limited to members of this Academy was well attended, satisfaction being expressed by many of the Fellows for this innovation.

The day and evening of Wednesday, December 8th, was set aside for our Annual Winter Clinic. Dr. Hoag, President-elect, provided an outstanding programme of clinics and demonstrations, which was enjoyed by a capacity crowd.

The Second Stated Meeting held on January 12th, at Osler Hall, was unique in that it consisted of a question and answer forum, arranged by Fellows of your Academy and the Academy of Medicine. A most valuable and instructive meeting was enjoyed by a large turnout of the Fellows of both Academies. The proceedings in detail may be found in the Canadian Dental Journal.

The Past Presidents' and Fraternal Night was held on February 9th. The essayist, Dr. John G. Coggan, of Detroit Clinic Club, presented a paper on "Amalgam Restorations" and included in his presentation a paper on "Amalgam Restorations." Included was a report of the findings of the U.S. Bureau of Standards on Alloys.

Prior to this meeting a dinner was held at the Carlton Club in honor of our Past Presidents. After dinner, Dr. Crouch, immediate past president, was invested with the jewels of his office in a mock initiation.

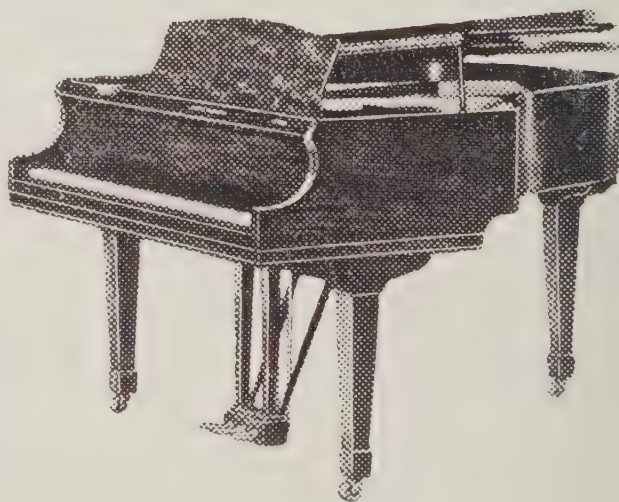

## BOARD OF CONTROL

I appreciate greatly the assistance I received from the Dentists of Toronto in the campaign of last year. I will again be a candidate for civic office and trust that my record has been such as to merit continued support.

FRED J. CONBOY

OPEN EVENINGS

ELGIN 6201

On Wednesday, March 2nd, 1938, Dr. John Oppie McCall, Director of Guggenheim Clinic, New York City, presented "The Modern Programme for Prevention of Dental Disease." This very comprehensive programme was illustrated by slides and motion pictures.

On Monday March 28th, with the help of the Dental Assistants and the Dental Nurses' Associations, your Executive organized a meeting to which all dental assistants and dental nurses of Toronto and vicinity were invited to hear Dr. Miller, of Flint, Michigan, The following evening, Dr. Miller addressed the Fellows of the Academy on "The Psychological Approach to Dental Office Problems." Both papers were well presented and stimulated much discussion.

Ladies' Night and the Annual Dance was held in Simpson's Arcadian Court on Thursday evening, January 27th. This event, as in former years, was a grand success, under the capable chairmanship of Dr. L. J. Saunders.

During the year, in addition to the meetings recorded above, twelve meetings of the Academy Council were held, as well as numerous other Committee meetings.

The activities of the Ladies' Auxiliary, Study Groups, Component Societies, etc., are reported elsewhere in this Bulletin.

The Indigent Clinic, as in previous years, performed a valuable service to an increasing number of patients. To those dentists who contributed to this valuable work the grateful thanks of the Exective is extended. The following is a brief summary of the momentous work of this Clinic:

|                                                                      |      |
|----------------------------------------------------------------------|------|
| Patients referred to private dentists for Extractions and Repair     |      |
| Dentures .....                                                       | 1045 |
| Patients referred to Hospital Clinics for Multiple Extractions ..... | 507  |
| Full Dentures required .....                                         | 862  |
| Amalgams, Silicates and Cement Fillings .....                        | 2723 |
| Treatments, including prophylaxis .....                              | 1075 |
| Patients completed in operative and dentures .....                   | 946  |
| Patients referred to Welfare Dept. for O.K. ....                     | 1045 |
| Patients applied for operative treatment .....                       | 750  |
| Visits made to Clinic by patients .....                              | 6781 |
| New patients applied for treatment .....                             | 1996 |
| Dentures repaired and paid for by City .....                         | 2    |
| Dentures made and paid for by City .....                             | 600  |
| Dentures made and paid for by friends .....                          | 3    |
| Dentures remade and paid for by City .....                           | 46   |

Two Hundred and Twenty Dentists gave 225 half-days voluntary service in Clinic.

One Hundred and Forty Dentists made 603 Dentures, 46 remakes and 2 repairs.

Three Hundred and Fifteen Dentists contributed time since inception.

One Hundred and Fifty half-days given by School Dental Staff.

The work of the Public Dental Health Committee of your Academy is ever increasing in importance, embracing as it does a wide range of activities, and numbering with its different sub-committees over thirty members. Dr. A. E. Higgins, chairman, has been a tireless worker. Space does not permit of further report on this important work, reports of which may be found in the pages of the C.D.A. Journal, the official organ of the Academy.

Dr. Harvey Reid, our congenial President, is to be congratulated for a year of achievement. His foresight and sane judgment was evident at all times and resulted in utmost co-operation both from his committees and the Fellows.

All of which is respectfully submitted.

W. G. TRELFOED,  
Secretary, 1937-38.

#### Auditor's Certificate

We have prepared the attached Balance Sheet of the Academy of Dentistry as at 30th April, 1938, together with a Revenue Account for the year. Subject to the following report we hereby certify that in our opinion the attached Balance Sheet is properly drawn up so as to exhibit a true and correct view of the state of the Academy's affairs at that date according to the explanations and information given us, and is as shown by the books.

Your Treasurer, Dr. Harold Skilling, has certified that all known liabilities to 30th April, 1938, had been paid at that date, and that there were at that date no guarantees or contingent liabilities outstanding.

GRAY, TESKEY and HILL,  
Chartered Accountants.
